Galaxia:
one design system across every surface

Open Social Summit ’26

We modernize the CMS interface and user experience, making it

accessible by default

We mapped all components and prioritized them by

Impact where users look most

Feasibility what we can deliver well and soon

Button, Control, Disclosure, Link, Action bar, List, Breadcrumbs, Modal, Inline message, Popover, Header, Tabs, Pagination, Filter, Autocomplete, Dropdown, Tag, Badge, Date picker, Progress bar, Accordion, Avatar, Sort, List, Text area, Top site navigation, Text field, Rich text editor, Tooltip, Tree view, File upload, Emoji picker, Indicator, Language switcher, Profile card, Cookie consent, Activity stream, Profile center, Content header, Event details, Hero section, Search, Secondary navigation, Card, Data table,

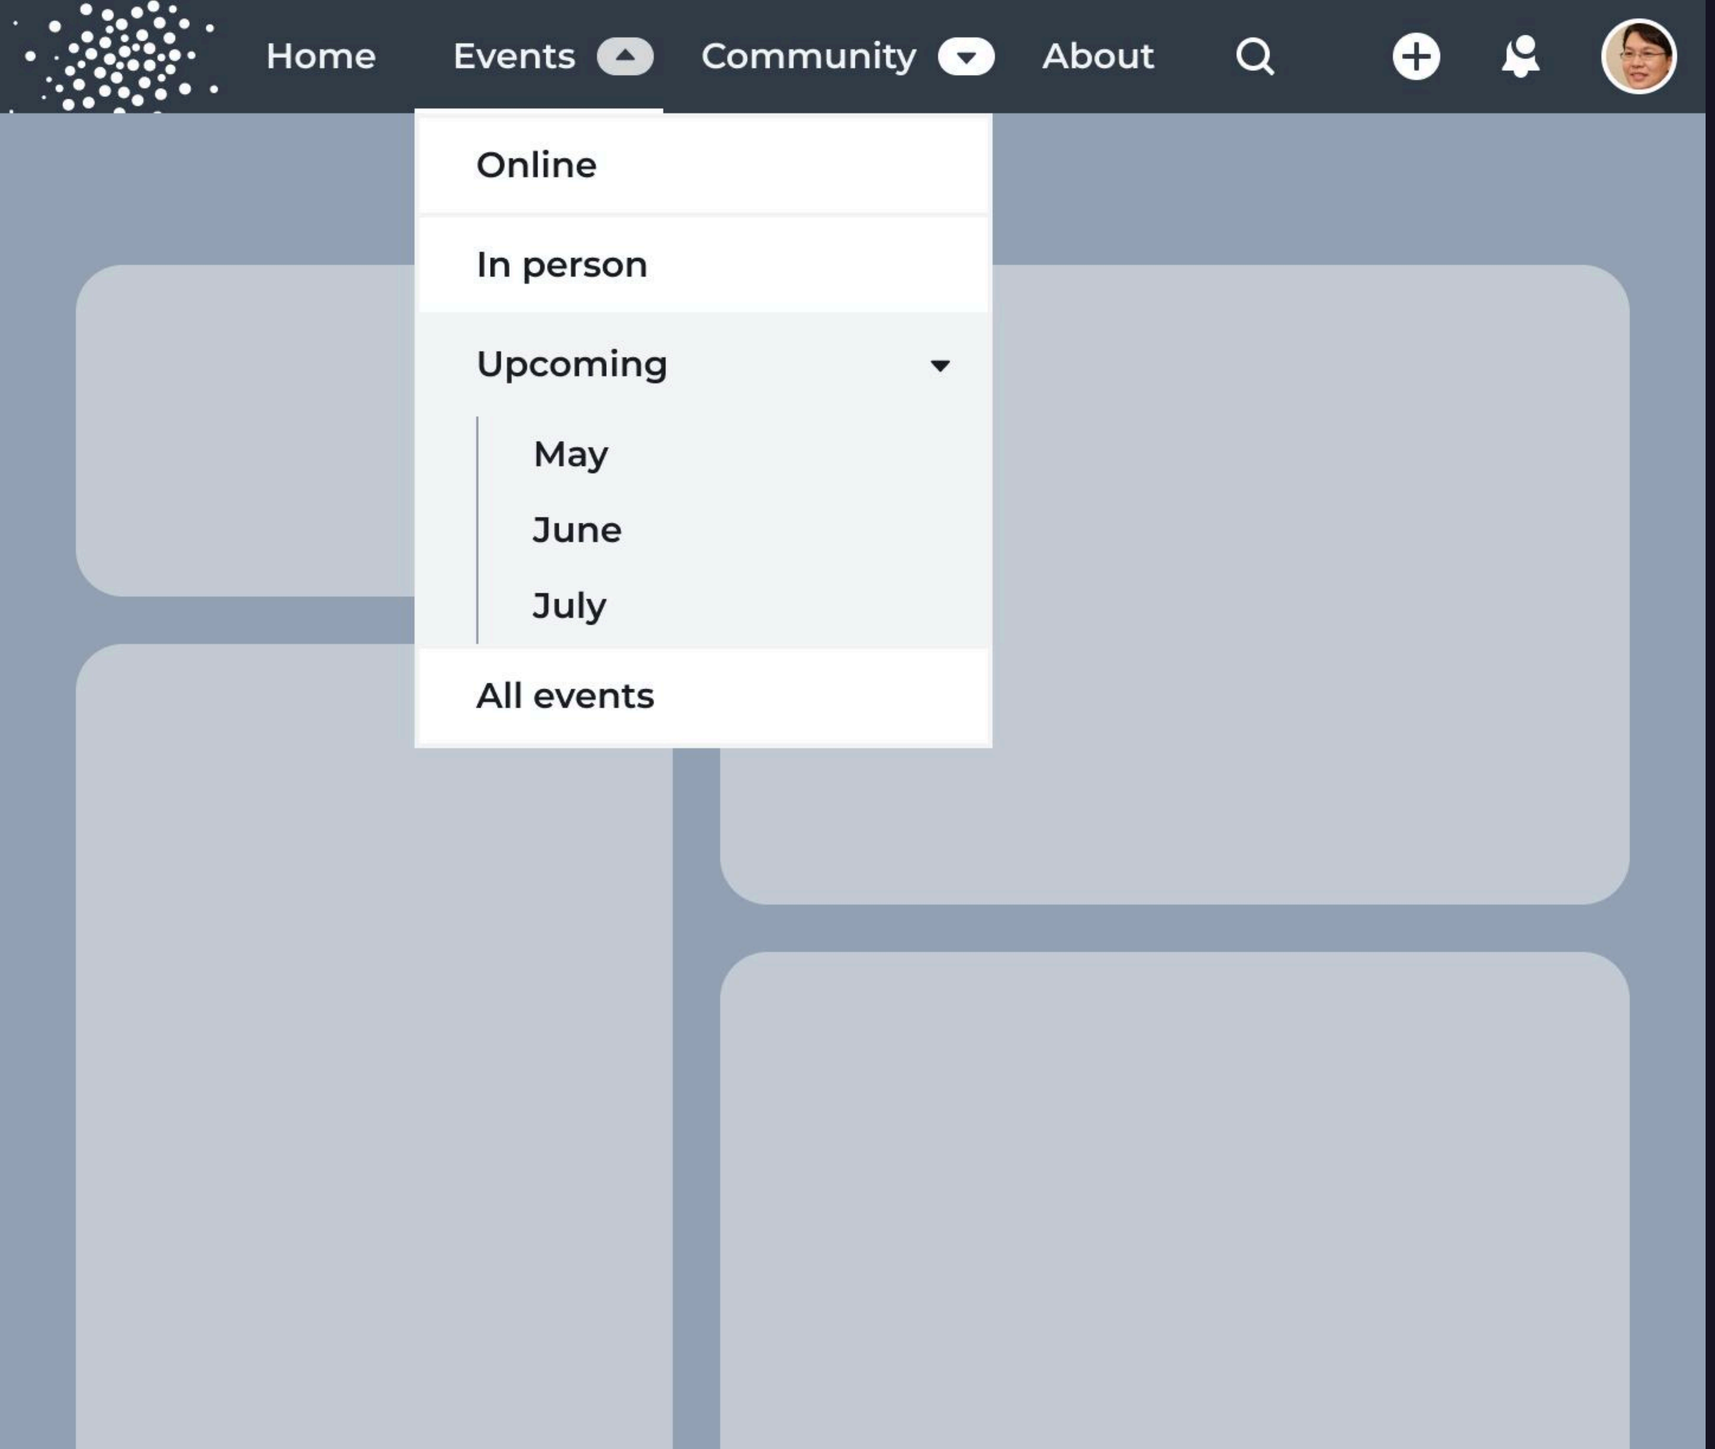

Button, Control, Disclosure, Link, Action bar, List, Breadcrumbs, Modal, Inline message, Popover, Header, Tabs, Pagination, Filter, Autocomplete, Dropdown, Tag, Badge, Date picker, Progress bar, Accordion, Avatar, Sort, List, Text area, **Top site navigation**, Text field, Rich text editor, Tooltip, Tree view, File upload, Emoji picker, Indicator, Language switcher, Profile card, Cookie consent, Activity stream, Profile center, Content header, Event details, Hero section, Search, Secondary navigation, Card, Data table,

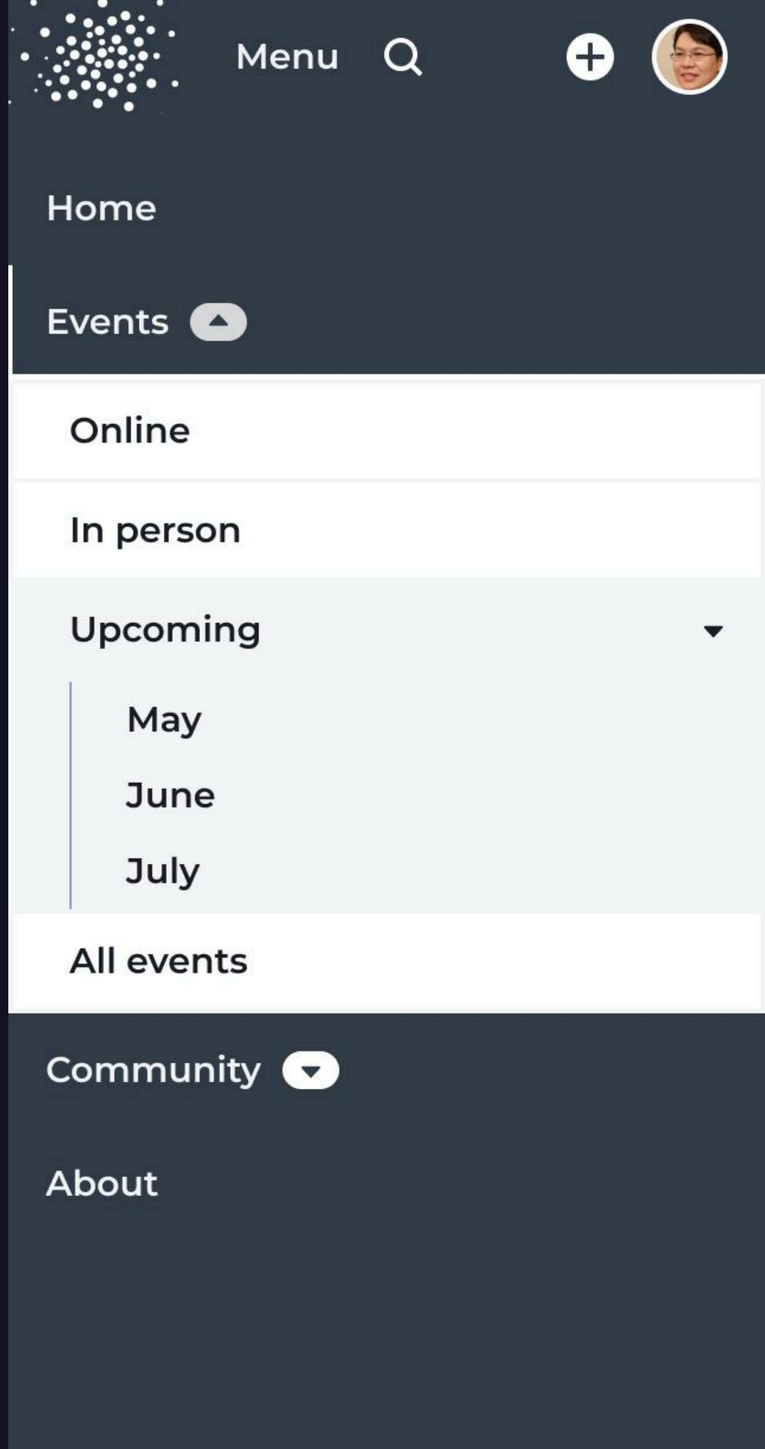

Foundation first.

One component at a time.

Hero content

Action bar, button,

Prioritized information discovery, less scroll, fixed image ratio.

Continuously a little more Galaxia

Every component goes through the same release cycle as the top navigation, including

user testing

All clients will get an invitation to a test environment where they can

try new designs

share feedback

Group hero, submenu, teasers or content hero: which one excites you the most?
